FBI-King Vol 17, Serials 1991- 2075

1997 is Phila report of call from female re Ray in Guatemala, supposedly. Close to the Edna business.

2003 N.O. teletype on Louis Lomax NANA article

2013 Houston teletype on checking Stein story via Lomax articles of Ray's use of pay phone. Almost half obliterated, claim 7C, D, not including Srei, omax, named,

2025- Rife reinterview.

2034 comes out Orwell: the FBI NCIC is responsible for the mustang business with the records fixed to have the Atlanta police a day later whereas they told the FBI/ The fingerprint identification is represented as rapid when it was slow/ In fact the language actually says that without the computer identification would have taken several weeks - which from the records is what it did take with the computer. (Or did it?)

2037 The one page is entirely withheld under 7C,D.

2046 to Legat, Bonn returns pix, attaches clippings for return to Dutch police. The files does not hold the earlier communication of what was forwarded with it.

2054 refers to a Chatanooga Brown. Same as of Milteer tape?

2061 This long after I filed a James Earl Ray waiver they use 7C Datte 2067,2069,on which also 3 others.
